IDENTIFIERS *United States

ABSTRACT

This report presents agricultural information for each state and the United States as a whole for the years 1981-1985. Included are data on population, land use, agricultural production, farm income, value of assets on farms, and selected characteristics of farms. The primary data sources are the "1982 Census of Agriculture," the "Economic Indicators of the Farm Sector: State Financial Summary, 1985," and "Foreign Agricultural Trade of the United States," March/April, 1986. For each state and the United States as a whole, data are presented in 21 categories: general, farmland, farms by size, agricultural universities, farmers, tenure of farmers, farm organization, major commodities produced, major export commodities, farms, acreage, cash receipts, government payments, other farm income, production expenses, net farm income, total assets, total debt, equity, top five counties in agricultural sales, and location and telephone number of the state statistical office. U.S.-State Agricultural Data. By Letricia M. Womack and Larry G. Traub. Economic Research Service, U.S. Department of Agriculture. Agriculture Information Bulletin No. 512.

ABSTRACT

This report presents agricultural information for each State and the United States. Included are data on population, land use, agricultural production, farm income, value of assets on farms, and selected characteristics of farms such as size, tenure, and farm organization. The primary data sources are the 1982 Census of Agriculture, the Economic Indicators of the Farm Sector: State Financial Summary, 1985, and Foreign Agricultural Trade of the United States, March/April 1986. The latter two are published by the Economic Research Service. Unless otherwise stated, data are for 1982.

Keywords: Farms, farm income, equity, production.

ACKNOWLEDGMENTS

The authors acknowledge with thanks the assistance of Lewrene Glaser.

ADDITIONAL COPIES OF THIS REPORT. . .

Can be purchased from the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402. Include title and series number in your order. Write to the above address for price information or call the GPO order desk at (202) 783-3238. You may also charge your purchase by telephone to your VISA, MasterCard, Choice, or GPO deposit account. Bulk discounts available for 100 copies or more sent to the same address.

Microfiche copies ($6.50 each plus $3 for processing) can be purchased from the National Technical Information Service (NTIS), 5285 Port Royal Road, Springfield, VA 22161. Include the title and series number in your order. Enclose check payable to NTIS. For faster service, call NTIS at (703) 487-4650 and charge your purchase to your VISA, MasterCard, American Express, or NTIS deposit account. NTIS will ship rush orders within 24 hours for an extra $10; charge your rush order by calling 800-336-4700.

NOTES AND REFERENCES

The information has been grouped into 21 sections. Each note provides further explanation.

Section I

Population figures are based on a final estimate from the 1980 census.

Section IV

The figure for percentage of farmers with nonfarm occupations represents farmers spending more than 50 percent of their worktime in 1982 in occupations other than farming or ranching. The remainder are farmers spending 50 percent or more of their worktime in farming or ranching. Percentage of farmers with nonfarm income represents farmers who, on the 1979 Farm Finance Survey, indicated that they earned income from a source other than farming or ranching. This survey is a followup of the 1978 Census of Agriculture. More current figures are not available because they were not collected in the 1982 census.

Sections VIII, IX, and XII-XIV

Data for sections VIII, IX, and XII-XIV are taken from the Economic Indicators of the Farm Sector: State Financial Summary, 1985, published by the Economic Research Service. Commodities specified in section IX are the top five commodities exported from the United States, as published in the March/April 1986 issue of Foreign Agricultural Trade of the United States. Data on cash receipts are that State's receipts, including net Commodity Credit Corporation loans, for those commodities.

Sections XIV, and XVII-XIX

Other farm income presented in section XIV includes nonmoney income and other farm income. Data in sections XVII-XIX include operator households. Nonreal estate debt presented in section XVIII includes nonreal estate debt and Commodity Credit Corporation loans.

The location of each county seat was obtained from the 1981 World Almanac Book of Facts.

Section XXI

Additional information about a State's agriculture can be obtained from that State's statistical office. See the U.S. data sheet for a list of Federal agencies to contact for additional data on U.S. agriculture.
